**1. Introduction**

Life is an important concept in Levinson's theory, and it is the basic pattern or design of life at any given moment. Personal relationships with others, includes: individuals, groups and institutions are ingredients implementation of life. Only the living can have many components, but usually only a few of them, which are associated with marriage, family and career, are vital for life. However there are large individual differences in the main value of the component side of life. Biographical reports of many people confirm that describes the stages of life from the perspective of Levinson. These reports also indicate that early adulthood (young), is the most of the energy in their favor, conflict and stress. These years, high satisfaction of love, sexuality, family life, career and research accomplishments are important goals of life. But these issues have a lot of pressures on the people. Important decisions about marriage and business are important issues before many people have the life experience necessary to choose wisely. Women in live longer have more same-sex intimate relationships than men. Women say they prefer just to talk with friends. Whereas men say they prefer do anything, when they are with their friends. These are due to quality of friendship and individual differences, which gender identity and marriage activity involved on them. Those who being informed of the behavioral characteristics of each other after married due to men and women with mental health problems, or lack of understanding of each other, will cause problems later in the life; and after the wedding

they discuss the many issues. Previously had described individually about their decision or their families; they tackle everyday issues and the relationships were informed about each other. Because of all these issues can be important degree and divorce. Especially those who are outside the age range for marriage norms are often faced with stress, that this move makes it harder. Marriage are the ones before, maybe your family, or a family looking for their elusive, most of these people never have, yet secure identity and independence have not grown enough for marriage is essential. Despite advances in women's rights, traditional marriage in Western countries are still to be found in this type of marriage, a clear division between the roles of husband and wife there. Male head of family is his main responsibility for family finances; women devote themselves to the care of his wife and children and have a duty to provide comfort to the family. However the, traditional marriage have changed in recent decades, women's values are reflected. In this case, a couple of times to connect and power is divided, both partners are trying to spend their time and energy to working with children and their relationships are balanced; the couple's divorce and separation may show less, however, understanding each other lives and professional relationships, both parties must be observed. (Karbasi, 2005). History The history of marriage is divorce. The cause of the man's natural desire marriage bond closes in loving family to come together for rest and relaxation, just as each other may be some reason that you continue

your life, accept divorce "Voltaire" says: (Marriage, divorce, and at one time the world was created). Divorce is certain that many other divine religions before Islam each other existed, so this will brief history of divorce in the last days. Ignorance in the age of divorce and the woman in the house so that the right side was to the left side and put it towards the East to the West. The man who saw it, it was noticed that her husband would divorce her and not him. The man who saw it, it was noticed that her husband would divorce her and not him. When a woman marries a man and leaves him night it was his choice, if he wanted to stay with her husband if she did not want to go. Satisfaction mark and man was that when the morning came, the food was well prepared for her. Unlike in other resources this was very simple and ignorant of the divorce took abusive words. In the past, women were regarded as commodities, so just as a good value and were bought and sold and traded and everything he was forbidden, except for housekeeping and child rearing guy could sell it, or will or testamentary gift that everyone wants to be a concubine. Babylon was the right guy to have in the case of illness or disability of the woman he chooses another wife in the marital relationship. But it could not divorce, and women's rights remain with the men of their own to find her husband in alimony. But if she was childless or infertile men had no right to marry another woman, but the girl brought home for her child and gave birth to a girl of his right not to do this. Christianity does not permit divorce never know, in the Bible (Matthew) states that Jesus was asked whether it is permissible, in the religion of Moses marriage is permissible in the religion of Christianity? Jesus said: Verily Moses the barbarity allows you to divorce your women, but I was not the same thing. In European and American countries, principally on the grounds divorce is based this country Theory (divorce penalty) or (divorce therapy). Divorce is punishable by a theory which, if the decision or failure to perform obligations of marriage couples, divorce is given. Since the divorce was accepted as a criminal offense, punishable by divorce it is called. Divorce Therapy - This theory ignores in fact that the fault, if fault it is or not, who is to blame, because no one is to blame, it is not possible to continue the marriage, divorce should be an accepted treatment. In these divorces, the reasons for the divorce, is not only because of its licensors (the lack of a common life). Prior to the French revolution in 1789, Christianity was banned divorce decree. In 1804 CE, divorce will allow timely adjustment of civil rights protests led the fanatical Church and rising divorce in 1816 AD. Divorce laws were repealed and instead subtract physically stronger. In 1884, after protest, divorce, if required,

will be forgiven; under the French Civil Code Reform Act of 1975, 11229, divorce decree is issued in the following cases: 1- happy couple, 2- cutting life, 3- fault. Divorce can be a couple of common application, in this case in accordance with article 230 not to mention the cause. It should only be a couple who agreed to provide. The judge can take up to 6 months for them to ponder and think about giving up on its decision to appeal. Asked one of the couple's divorce and the other party is permitted under Article 223 of the Civil Code, the van must be a reason for divorce that cohabitation is not possible to offer. To 1237 when the couple separated almost 6 years of living the wife can divorce. Especially if one spouse is afflicted with madness, and in that time they have lived apart. Divorcee or widow for some time in France legislation is adopted, which is 300 days before the end of the period, but if a woman has given birth to some, for others the end of birth is if the cause of our shared lives divorce is disconnected the people not required.

### 1.1. Physical separation

This separation is different from the actual subtraction (That is due to the cessation of cohabitation), and must be done by court order. And that means that, couples living separated without divorce without duties in common life. But if the death of a spouse, the other party is entitled to the legal rights, upon the death of spouse is determined. However, if the parties their asked of the court, physically subtraction is demanding, they could be downed inheritance rights after the death. This issue has many branches, which are influence in the French Civil Code (Haqqani, 1986).

### 1.2. Incentives for marriage

After adolescence and young, with diverse experience, growing relationship with the social environment, development dimensions of intellectual, understanding many aspects and reality of life, anyone considering the material and spiritual and with depending on their character and with influence of family life thinks to marriage as a target. And in this time that he thinks in the case of married and a partner who could be friendly to him. He will check your employment opportunities, economic and social situation and to search for select a suitable wife. He measures individuals of the opposite sex, directions, intellectual, behavioral, economic, familial, social and educational. And tries their friendly relations with a person are additional. This type of culture, community and family ties, and thus determines the shape is different. The relations of the two makes k d to assess the need for having a common life and marriage do that the agreement will lead to marriage.

Otherwise withdraw of the marriage relationship and the friendship continues, or due to the differences between cut and re-assessed to be anyone else (Askari, 2001). Same-sex relationships in adolescence are anxious to come out and fix alone. As mentioned, establishing a relationship with the opposite sex, it depends on the culture. In some cultures disapprove of premarital sex is acceptable in other cultures, and therefore the relationship between boys and girls before marriage is controlled by cultural norms. Unfortunately, in the absence of sex before marriage is not friendly or prohibited, girls and boys having sex on the imitation of other cultures can be and the difficulties and problems that can affect them in the future, wrote to its adverse effects. In these cases the Gender and mental needs of parents of the children in this area is important and as a preventive measure they can suck on their children, especially girls from sex to protect fateful consequences. A person who wants to marry their careful aim and motivation thinks marriage and to examine their motives would marry, any marriage that marriage is only for having a Common life without purpose and knowledge required to accept, fate is often vague and unpleasant. Meeting sprang to discuss and reflect on each other's behavior and enables young people to continue that the absence of understanding of the relationship before it comes to emotional factors, to prevent. In many communities there is a tradition in the family through marriage matchmaking is done, matchmaking occurs usually by the family of the boy, the time has come for the Son family feels that marriage or the family's request to marry his son to take action, the search for a suitable girl starts Usually women with family and friends to talk with a girl will consider and the woman's family shuttles initial negotiations do, and if that was their preferred girl and her family also announced its agreement, both father and family were in progress. Flows out of the their sons and daughters about their properties, if the original agreement and family, parents and son, something few people in my family to attend a formal suit, if the two families of boys and girls expressed their satisfaction, the candidate's work to be done and the wedding and thus will be married. And may be the son of the family, previous acquaintance with a girl or a boy and a girl who may have been friends, and soon reached the conclusion that they are married; the boy wants to woo the girl of the their family to go. When the marriage is performed by woo two families together from different directions are considered necessary and to assess the pros and cons. In fact, these are the families of the bride and groom would like to get married and with have good experience to know or reasons for boys and girls do not accept links. Score

this kind of marriage is that the two families, in first of many necessary aspects of cultural, social, economic and family are doing, and, if appropriate and necessary agreement to marry their son or daughter to be happy and any support that is needed, of the bride and groom do not hesitate. Disadvantage of this type of marriage is that in some cases, unfortunately, there are not male and female views. Unless the male and female candidates have ample opportunity to review each, and agreed by both male and female, and their views should be considered. Otherwise it may be a conflict between the married couple will appear. In addition, because families play a vital role in this type of marriage; therefore, allow imposing their views in many issues girls and boys are involved, and this will cause a married couple. Whereas the involvement of the families of sons and daughters and try to apply for their children under proper guidance and do manufacturer, them to maintain their lives and friendship and mutual advice. And if you need any assistance do not hesitate to give them stability and shared prosperity in the lives of their children will ensure (Askari, 2001).

### 1.3. Divorce

Although the subject of this research is divorced, but is required before divorce, the issue of marriage discussed which context of divorce is based on it. Marriage is the basis of human survival and reproduction condition in different ethnic groups, in schools, communities and different generations, with different traditions and customs. Select the dicky, survival, reproduction and birth of a new generation are involves maintaining and improving the human race, training the next generation, community affairs and activities of individual in the production and distribution of economic, flow of social interaction and cultural processes, working in politics and art, etc. are indebted to children and future generations, which will happen of marriage. Marriage in general has the following objectives and functions: Creating a center of calm and familiarity and affection for couple and children; replacement and creating a new generation and raising and mighty healthy children; and a means to achieve purity in moral relationships (Sotoodeh, 2006). The couple's union is not always going well and always ethical and behavioral and emotional adjustment, and communication between couples cannot bear the thought and everyday life circumstances and personal and social characteristics of individuals and couples is not to embrace each other to deal with problems between couples in love and always balance each other and keep is not continuity and stability in the marriage. Forever and environmental factors such as parental addiction, bankruptcy, personal characteristics such as

aggression and nervousness in prison and irritability, and verbal or financial weakness or obscene behavior, such as gambling and drinking alcohol buddy alcohol unwilling couples play together desire or select another dickey or deception and bad speculation and suspicion, such as items that threatens the foundation of families. If couples are unable to overcome and cope with this phenomenon inevitably become a ruinous divorce happens. Divorce is considered among the most important and most social damage. The word of divorce means release and separation of marriage and the marriage bond, and is terminating the marriage and is a phenomenon that caused ability to disrupt marital ties. Voltaire says of marriage and divorces in this world are born a few days earlier, perhaps marriage is born, because after a few days or a few months of marriage and marital relations, divorce phenomenon may be caused. Divorce and marriage are two of the old man is both necessary and essential for gaining (Haqqani, 1986). Hope and trust, taking the role of parents and young children, they need emotional and financial support and therapy and cognitive and social crisis and change, it will be by divorce, and a sense of helplessness and humiliation and inferiority. Children and young people will feel inferiority, in discharging their homework and answering questions from severe anxiety, and that is the ability to go down and break out of isolation and to collect and select.

Her self-esteem, feelings of helplessness and reduces your inner talents, there will bury themselves in crisis. Regardless of behavior disorders such as anxiety and depression, inferiority and humiliation which is portion of the area of divorce and family breakdown among children and adolescents and the social dimension of behavior disorder is more dangerous (Nikkhoh, 2000).
